Political Heat Soars At Belle Glade Commission

BELLE GLADE — Bumbblings of political verbal warfare which may break out when the city's general election comes along in September were evident Wednesday night at the regular meeting of the city commission.

Strife was about as the commission went along such important matters as opening bids from would-be purchasers of the \$200,000 bond issue to finance building of two city swimming pools.

RONNIE TOP SOFTBALLER

PAHOKEE — Teen-ager Ronnie Hitchcock, a high school senior, appears to be the big wheel in the still-young Pahokee softball league.

After four complete games, Ronnie is the league's top batter with a sparkling .553 batting average. He also has the most impressive pitching record, two wins against one loss.

Ronnie has sparked the White team managed by Heuston Connor, which leads the league with a 3-1 record.

In tonight's opener at 7:30, Joe Sims' Blues take on Snyder's Reds, with the Whites playing the Green team managed by Irv Malloy and Cotton Furber at 9 p. m.

Tuesday night the same teams oppose each other, but also switch starting time.

In this week's action, Reds pasted Greens twice, 4-2 and 12-8, while Blues divided with Whites, 10-6 and 3-10.

Bats sporting 500-or-above averages include George Tucker, Tom Miller, Wayne Burdshaw, Phil Bonnell, Jim Eagle and Julian Schrock. Leading pitchers are Malloy, Bonnell, Burdshaw and Wayne Kaul.

RESEVER went to press last night, a Pahokee All-Star aggregation was scheduled to play the team from the city of Miami at Indian town in a special exhibition. Jaycee sports chairman Julian Snyder said this was to be the first of several special games, with negotiations underway for a game with Belle Glade.

Tonight's play will be under more and better lights, Snyder said, with the city and Florida Power & Light crewmen making several installations.

League Standings:

	Won	Lost	Pct.
Whites	2	2	.500
Greens	2	2	.500
Reds	2	2	.500
Blues	1	3	.250

Geetarists Top Pahokee Talent

PAHOKEE — Mary Ellen and Bobby Jimmerson won this week's top award at Malcolm Miller's Talent Scout Night Tuesday at Prince Theatre with a vocal duet and twin-guitar playing.

Betty Lou and Dotty Lair won second place with a vocal duet, and 7-year-old Jo-Jo Young was third with a tap dance routine. Others appearing on the program were Alice Elaine Hurt and Ronnie Crosby, and Guest Stars Jo Ann Beardon and Barbara Clements.

Boe's Electrical Appliances sponsored the Tuesday show, and next week's sponsor is Jack Spencer's Market.

Glades Represented At National Co-op

BELLE GLADE — A number of Glades residents will be participating next week in activities at the national meeting of the American Institute of Co-operation at Raleigh, N.C.

L. L. Price of Belle Glade, member of the national co-op planning board in Washington, heads the local delegation. Mr. and Mrs. Walter Schlechter will represent area growers at the institute.

Mr. and Mrs. George C. Young plan to attend. Mr. Young will be principal speaker at a Monday session on cotton co-ops, basing his talk on his experience as manager of Glades Livestock Market.

Representing the trip to the institute by Future Farmers of America and their instructor are Harold Rabin Growers Co-op, South Bay Growers, Inc., and Pioneer Growers Co-op. FFA members attending will be Louis Friedheim, Ed Bowe, John Prevatt, Cecil Harrell and Sam Lovell, instructor.

Pahokee Council Squints At Police Auto Repair Bill

PAHOKEE — A full-blown hassle over the status of a police cruiser blossomed into public scrutiny at Monday night's meeting of the city council, with Councilmen Mrs. L. W. Armstrong and Edgar Wilder reporting having the auto repaired for \$29.83 after Police Chief Leon Guthrie had declared at the previous council meeting repairs would cost about \$400.

Guthrie was in attendance at the outset of the meeting but vanished before the explosive Armstrong-Wilder report was given. Council waited 10 or 15 minutes until the police chief could be located, whereupon he returned to discuss the matter.

The chief had previously said the car had a mileage of 83,000 miles "and is dangerous." Both Mrs. Armstrong and Wilder subsequently drove the auto and believed it to be comparatively safe, saying the auto is "broken in good as the 83,000 miles are slow miles."

Repair work was done by Harold Johnson, but councilmen agreed with police chief that the auto's steering apparatus needs repairs which would cost approximately \$35 to \$50.

In other major action, council unanimously adopted Councilman John Hatton's motion to grant the city of Miami facilities to the Junior Chamber of Commerce, subject to specific wrinkles still to be ironed out. The action gives Miami the green light to proceed with full-scale habilitation of Pahokee waterfront to make it the sports mecca it has shown promise of being.

Hatton also gave a preliminary report of studies made concerning building a sidewalk on the lakeside of Main Street from Prince Theatre to Boe's Appliances. Council called a special meeting to be held Monday night at 8 o'clock for final action.

A letter from John Pickett was read. It protested city's selection of K. C. Meek & Associates for Florida Power & Light to handle the sidewalk project without giving Pickett, a Pahokee engineer, a chance to bid for the job.

Council also adopted resolution to abandon an alley in Block 3 to R. O. Crosby, who plans residential building nearby.

OKAYED drawing up of plans for Florida Power & Light Co. to install eight street lights in Ridgester Gardens area.

HEARD Councilman President George Tucker affirm that dogs in city not wearing city-issued shields signifying rabies shots, would be picked up and disposed of.

OKAYED contract with Sharpe Bros. of Miami for clean interior of city water tank.

Ouida Wins With 'Dizzy Fingers'

BELLE GLADE — Ouida Lanier, playing a piano rendition of Dizzy Gillespie's big-time fennec, topped first place in Malcolm Miller's Talent Scout Night contest last Thursday at the Hugo Theatre.

Barbara Clements won second place with a hula dance, with Barbara Sheffield third, with vocal solos. Others appearing on the program were Roger Hatton, the Dancing Dicks, Marjorie Kahn and her band.

Last week's sponsor was Lake Shore Appliances, with Mathis-Boe Appliances sponsoring last night's program. Results of which will be published here in next week's edition.

Miami FBI Man In Pahokee Tues.

PAHOKEE — A big turnout is expected at Tuesday's joint meeting of the Lions and Rotary Clubs, which will feature a special talk by C. E. Weeks, agent in charge of the Miami office of the Federal Bureau of Investigation.

At this week's meeting, Manning Keen gave a full report on the recent Lions International convention held in Miami.

The club adopted as a special project the re-building of the backstop for the softball field at City Park.

At yesterday's Rotary Club meeting, guest speaker was Coach Bill Fowler, who discussed the summer recreation program for Pahokee youths.

GLADES INVENTOR BILLY PIERCE, r., explains how his new machine processes ramie fiber, to Fred G. Yount, L. president of Ramie Fiber Growers Association, and A. Aljeff, Guatemala. Clamp on 20-foot-diameter wheel takes ramie through six sets of wheels whirling at supersonic speed. First set of wheels shown here have 70 blades, are controlled to run at speeds up to 3,000 revolutions per minute. Wheels are set for tolerance so they won't mesh. Pulsation they create vibrates fiber against fiber, knocking loose waste as desired. Hoses force water on ramie, washing away waste. High speed also straightens ramie, providing for uniform stapling later.

Has Inventor Billy Pierce Solved The Riddle Of How To Process Ramie? If So, Lookout!

BY PAUL DINNIS

Use of ramie fibers has taxed mankind's ingenuity for centuries in many parts of the world. The fleeting dream of mastering its use has driven some men to drink, others to insanity. Estimates of capital invested in Glades ramie ventures—most of them costly and unsuccessful—range from \$5 to \$7 million.

GLADES OBSERVER has no financial interest in ramie, nor does it have a financial interest in the Billy Pierce machine. The following article is not an endorsement of the new process. —PED

Has Billy Pierce invented a revolutionary ramie processing machine in his Belle Glade machine shop? Is it such important machine in action and stood by in amazement as Billy Pierce's Rubie Goldberg-ian contraption grabbed handfuls of raw ramie ribbons, put them through ultra-sonic gadgets which clean and straighten the fiber in seconds.

Time alone and the judgment of experts who have investment capital to risk in costly ramie ventures will determine the ultimate impact Billy Pierce's new machine will have in the history-old dream of mastering the intriguing mystery that ramie is.

What is certain, though, is the fascinating enthusiasm evinced by onlookers at the Tuesday exhibition in Pierce's building north of the Pure Oil Station on North Main Street in Belle Glade. They saw Pierce's stapled fiber fed into a carding machine and emerge in fluffy, soft, white, snowy texture not unlike cotton in feel.

The omnipresent Billy, long a controversial figure in Belle Glade, trembled reaction to his invention and its performance Tuesday as "what I've been waiting a lifetime for. But don't take my word for what the machine will do, talk to the others."

The ramie delegation from Guatemala was on hand and had comments to make. Members of the U.S. Mission to Guatemala, International Cooperative Association, they were in the Glades to observe growing and inspect the Pierce machine.

Dr. Karl Kleim, the mission's industrial advisor, said: "I've been travelling around the world for 10 years studying ramie. This Pierce-processed ramie is the best I've seen. It is too early for the American textile market to capitalize on the Pierce process. This clean, straight fiber (unstapled and undegummed) is of such good quality it should find an immediate market in Germany, Switzerland and Japan."

Mr. A. Aljeff, president of the Essential Oil Producers Association, member of the mission and reportedly a ramie skeptic before visiting the Glades, said:

"This process will lower man's cost of living. Think of it instead of wearing a shirt three months before it wears out, now you could wear a ramie shirt at least a year, maybe longer."

Fred G. Yount, Belle Glade, (Continued On Page 8)

GUATEMALAN INDUSTRIALIST Dr. Karl Kleim inspecting Pierce-processed ramie in form it would likely be shipped to overseas markets.

STAPLING RAMIE UNIFORMLY — Here Pierce shows how wet, undegummed ramie is conveyed automatically to staples, which can staple uniformly at various lengths. Forced air staple roller and cutting blade keep fiber from bunching. At left stapled fiber is conveyed to receptacle, ready for bleaching, drying and carding.

How many more digs can we get in about the county's smooth-as-velvet road leading nowhere but to Pahokee's city dump? Well, let's see...

Politics is a-boilin' everywhere these days. Adlai and Estes are shoring up their support for the Democratic National Convention. Harold Stassen has made a bold bid for an after-election job via his efforts against Mr. Nixon. In Tallahassee they play with the segregation issue.

In Palm Beach County? Well, county commissioners announce an increase in the tax levy, despite an increase in county property evaluation. Because they need more money to pave roads leading to city dumps? — PED —

In Pahokee a pitched battle seems to be shaping up over whether the police chief will have his way and get a new curfew. The chief is insistent. Stay-at-home City Councilmen Mrs. Armstrong and Edgar Wilder are as insistent the city can't afford needless cost of new auto. Meanwhile, the chief's titular department boss, Councilman Loren Meredith, continues his stay-away-from-home tenure in the North, far away from the heat of battle. And the police chief exists on vacation. — PED —

Rabies is a ward meaning "irrationally extreme in opinion or practice," and stems from the same Latin word which gives us the English word "rabies." Despite the rabies scare of last week which continues to be a threat to human lives, only 300 dogs were vaccinated against rabies in ensuing Glades clinics. Glades dog owners seemingly don't care. What they need is to get rabid about rabies. — PED —

MAKES HIS POINT: Congressman Syd Herlong isn't given to making unneeded speeches. And on those rare occasions when he addresses the House, he usually has something worth saying. His speech on the "so-called" civil rights bill was no exception. "This bill is the greatest step toward thought control that has ever been attempted against the American people," he said.

"What are the proponents trying to do in passing this bill anyway?" he asked. "Are they attempting to try to better race relations? If they are, they could not be going about it in a worse way. Let us face the race facts. Barriers between races and creeds are erected by men and not laws. These barriers can never be lowered or removed by passing laws. They can only be removed by men."

"These manmade barriers had been gradually crumbling since the War Between the States. The passing of this bill, added to the recent Supreme Court decision, will cause barriers to spring up higher than ever. I urge you to believe me when I say that if we pass this legislation, years of patience and progress will have been wasted, and racial relations in my part of the country which until recently have been of the best, will be so greatly damaged that they will be beyond repair in our lifetime."

"If we should pass this legislation, I think we should give serious thought" Herlong continued. "To amending the oath of office we take when

Confused "Sit"-uation

Been meaning all week to tell you about Curley Lawson's "baby-sitting" experience.

His Mrs. left him in charge, about seven p.m., with instructions not to let the children out downstairs. So Curley read his paper and whenever he heard footsteps on the staircase he ordered the culprit back to bed. Happened three or four times.

Little while later, Mrs. Miller from next door came over to inquire if Curley had seen her Sonny. "Here I am, Mom," came a voice from upstairs. "But Mr.

Lawson won't let me go home."

From where I sit, jumping to conclusions like Curley did, doesn't always make for an amusing story. I'm reminded of the time when, without due consideration—have concluded that I'm wrong to like an occasional glass of beer. Well, to my way of thinking, that's not only intolerant... but, what's more, "injudicious" the other fellow's business is not the American way.

New Tax Forms For Gas Men

WEST PALM BEACH — Business firms subject to the new floor stocks tax on products included in the recently passed Highway Act may now obtain copies of Form 2265 from the district office of Internal Revenue at 230 Guaranty Building, West Palm Beach, District Director Tomlinson said this week. Returns, with payments are due by Oct. 15.

Increased taxes are levied on floor stocks of the following items on hand as of last July 1: gasoline; tires of the type used on highway vehicles; truck, bus and trailer chassis and bodies; and tractors. A new tax was imposed on tread rubber of three cents a pound.

An instruction sheet accompanying the new form, Mr. Tomlinson said, explains and defines inclusions and exemptions in the products listed as taxable on the form itself. Continuing taxes called for under the Highway Act will be paid as part of regular quarterly excise tax returns. A 16-year road-building revenue of about \$3 billion dollars will be financed by the taxes set forth in the new act.

Two million copies of the form were printed to meet the needs of affected businesses. Of these about a third are being distributed directly by trade associations and manufacturers, with the remaining two thirds to be available through district revenue offices.

Returns and payments should be sent to the district office, and checks or money orders should be made payable to the Internal Revenue Service, Mr. Tomlinson reminded business firms.

Cattlemen Can Use Bees Profitably

GAINESVILLE — Florida is a land of meat and honey — for cattlemen who combine beef production and beekeeping, says Agriculturist John D. Haynie with the Florida Agricultural Extension Service.

It is a good combination, he says. Reduced cattle income recently, due to low prices, could be offset with income from honey, quipped the bee specialist.

Honey production in Florida is estimated to be worth \$4,000,000 annually. This does not include the value of increased crop yields due to pollination. For each dollar that the beekeeper receives, 15 to 20 dollars' worth of pollination services are returned to agriculture.

The most value cattlemen can receive from keeping bees is to insure seed setting of pasture legumes to assure perpetuate a good stand of plants from year to year, figures Mr. Haynie.

Clearing of land for pastures and other farming operations has reduced the natural pollination by other insects. This means bees are largely left to do the job.

The bees are most helpful for legume pasture plants and for pollination of certain fruits and vegetables. Watermelons and cucumbers in particular need honeybees for pollination, adds Mr. Haynie.

Here's a quick vacation budget formula: take the amount you have for your trip and subtract from it your round-trip fare and what you want to spend for shopping. Divide what's left by the number of days you'll be away. The result will be the amount you can afford per day for room, meals, sightseeing and incidentals.

Who says the British don't have a sense of humor? In front of a church in the Midlands is this sign: "THIS IS A CH...CH. WHAT IS MISSING?"

Ever wonder why so many famous brands of bourbon are made in Kentucky? The explanation is that Kentucky abounds in limestone springs, the best type of water for making bourbon. It all started more than a hundred years ago when Dr. James Crow discovered a limestone spring near Frankfort and established his Old Crow distillery there.

An out-of-the-world barbecue idea I picked up while visiting the Wisconsin cheese country goes like so: Barbecue one side of the steak, turn it over and spread that side with blue cheese. Finish cooking the steak and serve—to cheers, applause and demands for more. Works just as well in a grill or oven.

LETTER FROM PRISON FARM Supt. RE INMATE'S DEATH

(Following exclusive disclosure in GLADES OBSERVER last month of the death of a prison inmate at Glades State Prison Farm without any effort being made to give him medical attention—analysis later showed he died from drinking denatured alcohol — we offered editorial space to the prison farm superintendent to give his version of circumstances surrounding the death of the inmate and prison farm operation in general. Following is the response to our offer. —PED)

July 24, 1956

Dear Sir:

As per your request several days ago, I am writing you what I think you want in the way of prison rules and regulations and the care of prisoners. These rules are set up by the Governor and his Cabinet and we try to follow them as near as possible. Please understand that we make none of the rules ourselves.

I have, here at the office, the latest revision of these rules and will be glad to let you read them any time you wish to come by.

I am attaching a copy of the diets that we feed daily here at the Prison.

If there is anything further that you would like to know, please come by and we will be glad to cooperate.

Yours very truly,

Weddings

Ona Marie Humphries Wed To David Peppard

The First Methodist Church of Pahokee was the scene of a beautiful wedding on Wednesday, July 18, at half after six o'clock, when Miss Ona Marie Humphries, daughter of the late Mr. and Mrs. Sam Humphries, became the bride of David L. Peppard, jr., son of Mr. and Mrs. D. L. Peppard of Columbia, S.C.

Rev. L. A. Sparks, pastor of the Canal Point Methodist Church, officiated at the double ring ceremony. Burning tapers in candelabra illuminated the altar which was decorated with white carnations in silver urns, before banked palms. White satin ribbons marked the family pews. Miss Annette McIntosh, pianist, played the traditional wedding selections.

The bride, given in marriage by her cousin, Trooper Charles Humphries, wore a white gown of Chantilly lace over tulle, with full skirt, molded strapless bodice, and a lace bolero with long pointed sleeves and a Peter Pan collar applied with the lace and sequins. Her illusion veil was shoulder length and she carried a bouquet of gladioli, tuberoses and orange blossoms. Her only jewelry was a strand of pearls, gift of the bridegroom.

The matron of honor, Mrs. Phillip White, was gowned in a pink silk crystaline organza with empire waistline, scoop neck and very full waist-length skirt with a bow in the back. She carried an old fashioned nosegay of pink sweetheart roses.

The groom's father acted as best man, and the ushers were George Wedgworth and Eddie Jones, both of Belle Glade.

Immediately following the ceremony, a reception was held at the home of Mr. and Mrs. A. E. Morgan on Annona Ave. Mrs. Ralph Johnson had charge of the bride's book. Mrs. Milton Salvatore served portions from the three-tiered wedding cake which was topped with real orange blossoms, and Mrs. Carrie Humphries presided at the punch bowl.

For traveling, the bride

The new Baptist hymnals will be used for the first time this Sunday. A special service of dedication of the hymnals is being planned for Sunday evening, Aug. 26.

SOUTH BAY BAPTISTS BEGIN NEW PROGRAM

Sunday afternoon several members of the First Baptist Church of South Bay set out on a church-wide visitation program which has proved to be very successful.

Wednesday there was an Associational WMU meeting at the First Baptist Church, Big Cypress Indian Reservation. Those who attended brought sandwiches and the host church furnished the beverage. Everyone enjoyed a pleasant time.

There are two additions to the church roll, both by letter. New members are Jerry White, First Baptist, Lake Wales, and Mrs. Albert Snyder, First Baptist, Pahokee.

BG PRESBYTERIANS TO HEAR GUEST PASTOR

Dr. and Mrs. J. Leighton Scott left Tuesday to attend the World Missions Conference at Montreat, N.C., for one week. From there they will go to Watervliet, N.Y., to spend three weeks.

Dr. Scott will serve the Presbyterian Church there, and during his absence, Dr. Norman Wilson of the Watervliet Presbyterian Church will serve the Belle Glade church.

Before returning to Belle Glade, Dr. and Mrs. Scott will visit relatives in Baltimore and Philadelphia.

BG METHODIST CIRCLES HOLD JOINT MEETING

The Star and Joy circles of the W.S.C.S. of Community Methodist Church in Belle Glade met jointly Tuesday evening at the home of Mrs. Russell Tucker. The devotions were given by Mrs. Vernie Boots. Jerry Barry, summer youth director of the church, was the guest speaker. He told about the youth work being accomplished in the local church, and then gave an interesting and informative talk entitled "Christian Perspectives in Politics."

Mrs. Frank Morris presided over a brief business session.

FIRST CHURCH OF CHRIST, SCIENTIST, Belle Glade CHRISTIAN SCIENCE GROUP.

Canal Point
The value and importance of right motives in daily living will be emphasized at Christian Science services this Sunday.

Readings from "Science and Health with Key to the Scriptures" by Mary Baker Eddy in the Lesson - Sermon entitled "Love will include" the following (454:17-21): "Love for God and man is the true incentive in both healing and teaching. Love inspires, illumines, designates, and leads the way. Right motives give pinions to thought, and strength and freedom to speech and action."

The freedom-giving power of divine Love will also be brought out in the Scriptural readings which include the following (1 John 4:18): "There is no fear in love; but perfect love casteth out fear; because fear hath torment. He that feareth is not made perfect in love."

SERVICES FOR PIONEER GLADES LANDOWNER

Funeral services for Harry J. Chapman, 94, who died Sunday after a long illness at his home, 322 Trinity Place in West Palm Beach, were held Monday at 2 p.m. at Vogel Funeral Home, with Dr. O. H. Callis, associate pastor, First Methodist Church, officiating. Cremation at Miami followed.

He moved to West Palm Beach in 1918 from Greenfield, Iowa, after retiring from law practice there. He was a pioneer owner of land in the Glades, being president of the Oveelanta Land Corporation, which controlled many acres, including the land on which all of Veroville is built. He was loved and respected by all who knew him.

Survivors include his wife, Mrs. Kitty Chapman; a son, J. Leo Chapman, West Palm Beach; a sister, Mrs. Joseph B. Baker, Shelbyville, Ill., and two granddaughters, Mrs. Robert Maurer, Yellow Springs, O., and Mrs. Fay Potter, West Palm Beach.

Mr. Chapman was a member of Crusade Lodge No. 386 F&AM, Greenfield, for 56 years; He also was a member of Mah Shrine, Miami.

BG LEGION AUXILIARY HEARS GIRLS STATE REPORT

Members of American Legion Auxiliary Unit No. 20 in Belle Glade met Monday night and heard a most interesting report by Mrs. J. B. Jones, who served on the staff at the recent Girls State.

Mrs. Davis Kicklighter presided over the meeting and appointed these chairmen: Mrs. Fred Ogle, rehabilitation; Mrs. Jones, past presidents' parley; and Miss Karlene Killough, a new member, music chairman.

Mrs. Homer Brooks and Mrs. Vivian Arnette served delicious refreshments. Others present were Mrs. Ray Pentz, Mrs. Jack Rashley, Mrs. Bob Riley and Mrs. Hubert Swain.

The Auxiliary decided to forego its regular August meeting so members may attend a bingo party co-sponsored by Belle Glade Legion, for patients at the veterans hospital in Coral Gables on Aug. 27.

Pictured in front of the flag at Camp Margery Daniels at Jupiter are Belle Glade Girl Scouts (l to r): Francie Ball, Sherry Hill, Suzanne Wierengo and Barbara Wolf. They were joined Sunday by Beverly Tabl, will encamp until Aug. 3.

GIRL SCOUTS REPORT ON NATL. ROUND-UP

WEST PALM BEACH—Four Girl Scouts representing the Palm-Glades Girl Scout Council have written an impressive letter to persons making possible their attendance earlier this month at the national Girl Scout Round-up in Michigan.

In expressing their thanks, the girls — Sallie Ann Harth, Carol Patrick, Jane Keil and Sandra Keith — emphasized the thrills of living in harmony with the 6,000 girl scouts attending the affair.

During the 12-day encampment, the 6,000 girls ate more than 16 tons of meat and fish off 350,000 paper plates, drank nearly 1/2-million glasses of milk and enough fruit juice to fill two 1,000 gallon reservoirs, according to the letter.

Phytomycin the new liquid antibiotic

GET GREATLY INCREASED, BETTER QUALITY YIELDS

Phytomycin, manufactured by our E. R. Squibb & Sons Division, has proved the outstanding control for certain bacterial and fungus diseases of tomatoes, peppers, tobacco, fruit, potatoes and walnuts. Keep pace. Use the new, better way to control disease.

Phytomycin—

- Completely disperses in the spray mix to form a true solution (unlike wettable powders)
- Forms a better and more uniform mixture (than wettable powders)
- Does not cake (as do wettable powders)

GLADES QUIZ:

"SQWK!"

Q. Sqwk?

A. Yes, Sqwk!

Q. Sqwk — what does it mean?

A. Sqwk . . . doesn't mean a thing.

Q. Sqwk . . . well . . . ?

A. Sqwk is merely the split-second sound you get when you pull out a sheet of paper from our famous "snap-out" office forms.

Q. Sqwk . . . hmmm . . . I see.

A. Yes, we call these snap-out forms **TIME-\$-SAVERS** for you.

Q. Sqwk . . . well, it makes sense.

A. Yep, it does. Especially when you realize these snap-out **TIME-\$-SAVERS** give you adequate duplicate copies of checks, bills of lading, invoices, orders, etc., for ALL your bookkeeping needs.

Q. Sqwk, you've got me. Who uses **TIME-\$-SAVERS**?

A. Glades growers, packers, cattlemen, retailers—everybody who uses office forms and wants to do things easier and **SAVE MONEY AND CLERICAL TIME**.

Q. Gee, you've got me saying Sqwk. Where can I get this stuff?

A. At **LAKE SHORE PRESS**, publishers of **GLADES OBSERVER**. We print your forms as you want them, perforate and glue each sheet and carbon so they can easily be snapped out for filing.

Q. Sqwk, when?

A. Better order your **TIME-\$-SAVERS** from Lake Shore Press now — **TODAY**. We've got more time to give to your order now, and we'll stockpile your printing and deliver it when you need it during the height of your season.

Q. Sqwk . . . can I order by telephone?

A. Sure, give us a call today — Pahokey 571, and we'll arrange to see you personally for prices, printing details, etc.

FDA Trains
Rescue Corps

Twenty miles from downtown Washington is the world's greatest "disaster" — a gigantic slide setting without a stage, professional actors or scenario.

Amidst the backdrop of "bombed-out" buildings rises, volunteer "actors" and "actresses" periodically put behind the day's mad, mad world to become "victims" at the Federal Civil Defense Administration's Olney, Md., Rescue School.

WHILE BURNING oil is played on stairways and other key spots in the ruins by a remote control, students at the national rescue school enter the flaming structures and actually rescue the "victims."

Some "victims" pretend to be injured. Others simulate situations the rescue workers would meet in an actual civil defense disaster by becoming "hysterical," and even by kicking and fighting their would-be "rescuers."

Seldom, however, do professional rescue instructors standing by actually have to enter the ruins to help out their students during the "final exam" — a two-week course. And never are the volunteer victims actually in danger, for they have been placed in areas known to be safe from the hidden flaming oil jets.

Billy Pierce's Invention . . .

START-TO-FINISH ramie story is illustrated here. At left Harley G. Morton of Everglades Experiment Station holds ramie fresh from field decorator but ready for Pierce process. Edgar G. Hamilton, r., has fiber already processed and bleached. Mrs. Maria Perkins, chemist at Southern Research Laboratory, New Orleans, holds fluffy ramie after it has been mechanically carded. processor of Ramie Fiber Growers Association. "The fiber straightening is the most important aspect of the Pierce process because of the uniform-length staple it makes possible."

Logan Perkins, representative of Carey Machine Works, Opaus, La., "Improvements we've developed on the Carey ramie field decorator and Billy Pierce's new machine, together open up new vistas for ramie."

Pierce said he has been working on ramie machines for about 12 years. The idea of using ultra-sonic vibrations to process ramie ribbons has been germinating in his head for three or four years, he said.

Dream Made Real
Only last November did Billy put together his first small working model of his machine. During early '56 he and his loyal staff began constructing the "real McCoy" machine, constantly improvising perfection in it right up until Tuesday's demonstration.

Pierce terms his present machine merely a working model. He has patent protection on the invention, he says. He'll use it the remainder of the current ramie season largely for purposes of improving it still further, but will help process limited supplies of Glades ramie if growers are having trouble marketing it.

Pierce's machine has a capacity of processing from 100 lbs. to 200 lbs. of ramie per hour. To handle large volumes of ramie, numerous Pierce machines

PET OWNERS AND PARENTS ONLY MILDLY SCARED OF RABIES

Rabies clinics conducted in all Glades communities by veterinarians have been only mildly successful, according to Clyde Brown, county health department representative in the Glades.

Of the estimated 1,600 dog population in the Glades, only 300 were inoculated against rabies at the clinics hurriedly organized after a puppy out of a Canal Point litter infected four Belle Glade citizens during the past fortnight.

Ironically, biggest turnout of canines in rabies-shot clinics was Monday at Lake Harbor, further west. Glades community from the scene of the rabies incident. Only 50 dogs were inoculated in Pahokee, 70 in Belle Glade, with a "good" turnout in Canal Point.

Meanwhile, Brown urged all dog owners to be sure their pets were rabies-proof, for the protection of their families and neighbors "as well as for the pet."

Brown reported the death Friday of a stray bird dog belonging to a family living between Belle Glade and 20-Mile Bend. He said the dog apparently died of natural causes but had all clinical symptoms of rabies and it is assumed it was infected.

Glades veterinarians are available to inoculate dogs several evenings per week, according to Brown. To control a rabies epidemic, 70 to 75 percent of dogs must be inoculated, he said.

More Money For Flood Control

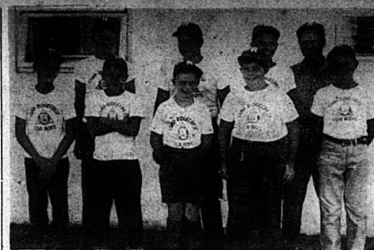

WASHINGTON — An additional monetary authorization of \$40,000,000 for partial accomplishment of the over-all flood control plan for the Central and Southern Florida Flood Control project has seen initial approval by a House committee, Rep. Paul G. Rogers announced this week.

The appropriation was included in an omnibus "river and harbors" bill before the House Public Works Committee, of which Rep. Rogers is a member.

PAHOKEE SAILOR ON MEDITERRANEAN CRUISE

NORFOLK, VA. — John H. Davis, airman apprentice, USN, son of Mr. and Mrs. Frank Davis of Pahokee, Fla., is serving aboard the attack carrier USS Randolph which left Norfolk this month for a tour of duty in the Mediterranean.

The carrier holds the 1955 Battle Efficiency "E" award and the Aviation Safety award.

Legion Increases Memberships

PAHOKEE — Membership drive of Pahokee Memorial American Legion Post 90 got off to a good start this week with signing up of 10 new or inactive members, according to chairman Pennington.

New 1957 Legionnaire cards are being issued to all dues-paying members, Pennington said, and there is evidence the Legion drive will be successful, what with increased facilities at Legion Hall and a re-activated Auxiliary program.

Legion Commander Bob McQueen announced the post has voted to donate \$25 to Boy Scout Troop 28 toward purchase of a large bus for scout trips.

McQueen also announced that the Legion now has a new policy of renting its hall on Saturday nights for square dances, for a set rate to a locally-known band for their use.

A special election will be held at the regular meeting Monday night to elect a new sergeant-at-arms to replace the late Marion Henderson.

LEGAL NOTICES

NOTICE: To all the owners or interested parties of all law and lands adjoining and containing or bearing any right or interest in the land of SALVATORE ADDITION TO PAHOKEE, FLA. BOOK 15, PAGE 74.

RESOLUTION NO. 15-56
A RESOLUTION RELATING TO THE INTENTION TO ABANDON THE ALLIANCE WITH THE CITY OF SALVATORE ADDITION TO PAHOKEE, FLA. BOOK 15, PAGE 74.

Gamots Rendezvous In France

PAHOKEE — Long-time resident A. J. Gamot sailed Wednesday from New York City aboard the liner Ile de France for a trip to his native country.

When Mr. Gamot docks at Le Havre he will be met by his children, Leona and Albert, now touring Europe in a student group from the University of Mississippi, where both are matriculating.

Les Gamots plan to sightsee in Paris and visit Mr. Gamot's sister near Bordeaux. Albert and Leona will return to the U.S. in mid-August on the liner Liberte, but Mr. Gamot will remain in France until October.

BG VFW PLANS FAMILY PICNIC

VFW Post 8181 and the Auxiliary enjoyed a pot-luck supper Monday evening at the American Legion Hall.

A joint meeting followed at which plans were made for a picnic to be held Aug. 5 for members and their families at Phipps Park near West Palm Beach.

WARNING! RABIES! - RABIES! - RABIES!

A DANGEROUS RABIES SITUATION NOW EXISTS IN THE GLADES. FOUR PERSONS HAVE BEEN BITTEN OR INFECTED BY A DOG WITH RABIES. THEY ARE NOW UNDER MEDICAL TREATMENT. THE DOG HAS BEEN DESTROYED BUT MAY HAVE INFECTED OTHER DOGS AND ANIMALS.

PROTECT YOUR LIFE - & YOUR CHILD'S

READ THIS BULLETIN CAREFULLY AND FOLLOW INSTRUCTIONS

IS RABIES REALLY DANGEROUS?	PROTECT HUMAN LIVES	WHAT TO DO ABOUT YOUR DOGS AND PETS
<p>1. Yes, rabies is fatal to persons infected unless medical treatment is given.</p> <p>2. Rabies affects man or mammal — any warm-blooded animal.</p> <p>3. Rabies is a virus disease. It is transmitted via animal saliva.</p> <p>4. Any pets — as well as humans — can become rabies victims.</p>	<p>1. Keep all pets penned or tied as long as the warning 90 days. If your pet has been infected, evidence of it will surface within 90 days of exposure.</p> <p>2. Notify authorities of stray animals.</p> <p>3. Do not pet strange or stray dogs. Even though you love your own pet, play safe and assume — for safety's sake — that it may have rabies.</p> <p>4. Especially keep young children away from pets. An innocent, quick motion may startle a rabid pet and incite it to bite.</p> <p>5. If you are suspicious of any bite or scratch on your child, notify your physician immediately.</p> <p>6. Remain on the rabies alert at least until Oct. 20.</p>	<p>1. Have them given rabies-immunization shots at least once every year.</p> <p>2. Vaccinate all pets over 8 to 10 weeks of age.</p> <p>3. Encourage your neighbor to immunize his pets.</p> <p>4. Notify county health officials immediately of any dog or pet known to have been in contact with any infected animal.</p>
